OBJECTIVE

Full Stack Engineer with **3+ years of experience** building scalable SaaS applications, CMS platforms, e-commerce solutions, and real-time systems using React, Next.js, Remix, Node.js, and TypeScript. Shipped **18+ production projects** across 4 tech companies. Passionate about performance optimization, modern web architecture, and delivering high-quality user experiences.

SKILLS

- **Programming Languages:** JavaScript (ES6+), TypeScript, HTML, CSS
- **Web Technologies:** React.js, Next.js, Remix.run, Tailwind CSS, REST API, Node.js, Express.js
- **Database Systems:** MongoDB, Mongoose, Supabase, PostgreSQL, SQL, Prisma, Directus, Cloudinary
- **State Management:** Zustand, React Query, Context API, Custom Hooks
- **Tools & Workflows:** Git, GitHub, Postman, Vercel, Figma, GSAP, Framer Motion, Mantine
- **Full Stack:** API integration, CMS development, Socket.io, RBAC, JWT, Google OAuth, Meta Graph API, SEO, Responsive Design

EXPERIENCE

- **The Gold Technologies** *Feb 2026 - Present*
  Full Stack Engineer Delhi, India
  1. Developed a multi-tenant **Inventory Management SaaS** platform with RBAC, super admin controls, subscription management, **trial onboarding, and billing** automation.
  2. Developed real-time features including **live Chat Support**, Announcement broadcasting, and a **System Log** tracking user admin actions using **Socket.io**.
  3. Built **Email Campaign** management with Markdown processing, React Query, template image upload, automated scheduling, and **Google OAuth** integration.
  4. Built and delivered production platforms and bespoke **CMS solutions** (**Kokalachi, Kumar Power, Lubricon Specialities, HP Lubricants CFA, Jai Deva Oil Co., SK Jewellers, ARCOS, Encotech, Seven Stars**) with **Cloudinary** image management, **SEO optimization**, and live integrations in Next.js & React.
- **Quvor** *Jun 2025 - Dec 2025*
  Frontend Engineer Delhi, India
  1. Developed complex **cart and wishlist** flows, including dynamic product handling for both logged-in and guest users using **Directus**.
  2. Built responsive, modular UIs (Landing Pages, Product Listings, Plan Comparison, Modals) using **Remix.run, Zustand, and Mantine UI**, improving user experience across devices.
  3. Optimized client-side performance and page load times with **lazy loading, component memoization, and bundle size reduction** in Remix.run.
- **DU Buddy** *Feb 2025 - Jun 2025*
  Frontend Engineer Delhi, India
  1. Created a flexible **promotional feature system** with customizable discount coupons for educational courses, supporting time-limited offers that increased course purchases and conversion rates.
  2. Integrated dynamic video components and interactive sliders on the company's main website, increasing visitor **engagement by 40%**.
  3. Streamlined checkout flows and integrated **third-party payment gateways**, decreasing transaction **drop-off rate by 18%**.
- **Lean Platform Technologies** *Mar 2024 - Jan 2025*
  Frontend Engineer Delhi, India
  1. Built a **dynamic website builder**, allowing users to **create multi-page websites with custom themes**, dynamic routing, lead forms, and lazy loading, **boosting page speed by 34%**.
  2. Integrated SEO functionalities and third-party tools like Crisp, Clarity, Facebook, and LinkedIn, improving **user engagement by 22%**.
  3. Developed custom **form builders** with schema validation using **Zod and React Hook Form**, enabling non-technical clients to design lead-generation forms with zero code.

PROJECTS

- **Lingo (AI English Tutor)** - Interactive English Learning Platform | Personal Project | Built an AI-powered English learning platform with personalized learning paths, roleplay conversations, debate practice, Google OAuth, and real-time chat features using Next.js, TypeScript, and Gemini AI.
- **Kumar Power + CMS** - Industrial Power Solutions Platform | The Gold Technologies | Enterprise generator catalog and enquiry pipeline with a Next.js + Prisma CMS featuring role-based auth, lead processing, and Cloudinary media management.

EDUCATION

- **Indira Gandhi National Open University:** Bachelor of Computer Applications
